

# Stay Ahead with Smarter Fleet and Delivery Solutions

Helping independent lumber dealers streamline operations, boost visibility, and deliver a better customer experience.

## Solve What Slows You Down

Too much paperwork. Manual entry. Limited visibility. Rising costs.

DQ Technologies helps you modernize delivery operations without replacing your existing systems.

### Seamless ERP Integration

Connect your ERP or POS system with our delivery and tracking platform.

**Integrated GPS delivers a complete, end-to-end view of every order.**

- Combine order, customer, and vendor data in one place
- Eliminate manual processes and reduce paperwork
- Improve internal communication and customer service
- Gain instant access to real-time, accurate information

### Protect Your Fleet with DQTCam

Keep your drivers safe and your business protected.

**Encourage safer driving, protect your assets, and strengthen your reputation.**

- Dual-facing cameras record road and driver behavior
- Detect harsh braking, speeding, and distractions
- Lower insurance costs and reduce liability
- Access live or recorded footage instantly from anywhere

### Keep Customers in the Loop

Deliver a premium experience with automated order updates.

**Visibility that builds trust, every step of the way.**

- Send notifications by email or text
- Let customers track deliveries in real time via a branded portal or app
- Reduce "Where's my order?" calls and improve satisfaction

### Proof of Delivery That Builds Confidence

Every delivery tells a story. Ensure yours is supported by evidence.

**Seamlessly integrated with Dispatch, Scheduling, GPS, and Dash Cameras for a complete delivery record.**

- Capture photos and signatures at every drop-off
- Instantly confirm delivery completion in your system
- Eliminate disputes and reduce follow-up calls
- Give customers visual confirmation through automated notifications

### Why Choose DQ Technologies?

- Seamless ERP/POS integration
- Streamlined dispatch and delivery management
- Full visibility and accountability
- Improved safety and customer satisfaction
- Backed by responsive, U.S.-based support
