

CELL SHOCK

A dedicated delivery & tracking app - with your company's branding

DQ CUSTOMER PORTAL

A branded and skinned mobile app for your customers to check and track deliveries from their iOS® or Android™ device

Stand Out From Your Competition With Your Own Mobile App - Powered By DQ

DQ Customer Portal gives you your very own mobile app. An app that gives your customers order delivery and tracking information on their Android™ or iOS® device. An app that looks and feels like your own corporate brand.

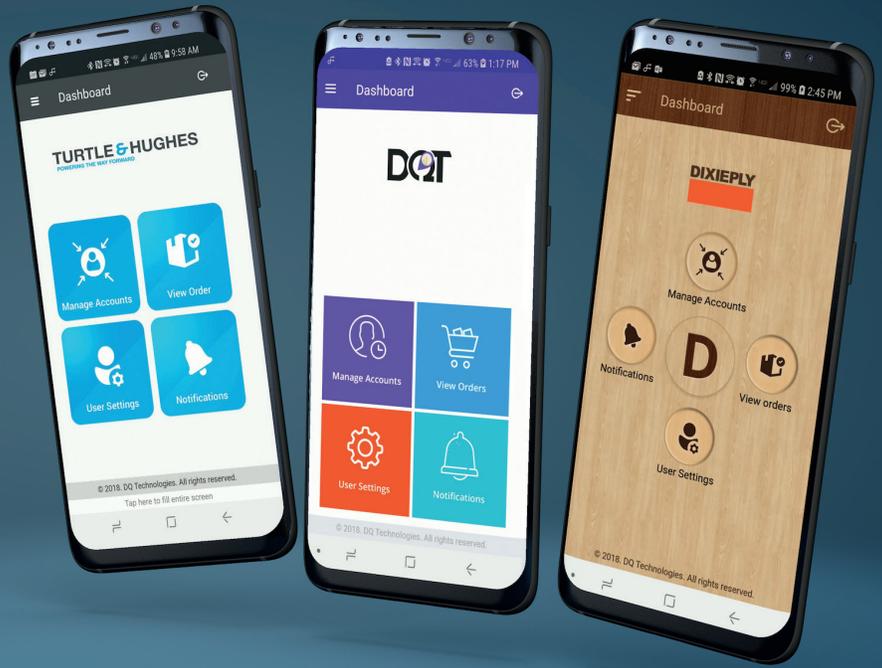

Powered by our award-winning ODT technology, Customer Portal gives your customers real-time information - up to the minute ETA, delivery status updates, POD signatures and pictures, and even the location of the vehicle making the delivery - all with our famous rock-solid reliability.

DQ Customer Portal is a sure way of securing a leading presence in your industry. Instead of being an abstract concept of a brand your customers appreciate, you're literally right in their pockets. Your logo is on their home screen.

Best of all: we do all the work! Simply send us your corporate brand guidelines, logo, icons, etc. and we'll handle the rest.

- Stand Out From The Competition
- Increase Brand Recognition & Customer Loyalty
- Provide An Enhanced Customer Experience
- Increase Customer Engagement & Profitability

“It was hard to know what was really happening out in our private fleet supply chain.”

“With years of tracking and routing optimization knowledge DQ was able to help improve my delivery network with their new real-time solution.

Knowing what’s going on in the field so our sales and service support team can deliver more efficiently, improve customer service, reduce costs and time spent calling drivers, customers and sales with updates sometimes relaying information that can be lost in translation. I am confident this solution is cutting edge and will quickly provide an ROI in our very difficult delivery market area”.
